

BRIAN JONATHAN V. YABUT

BS in Information and Technology

with Specialization in **Web and Mobile Application**

Versatile and SEO-aware developer with hands-on experience in full-cycle web development, document automation, and UI/UX design — passionate about building scalable solutions using modern frameworks and clean code practices.

Objective

As a goal-driven and adaptable **Web Developer**, I specialize in building **responsive web applications** and automating **document workflows**. I am the **Co-Founder and Lead Developer** of **Customodoro**, a feature-rich, **SEO-optimized Progressive Web App (PWA)** built using **JavaScript**, **HTML5**, **CSS3**, and **Web Vitals** best practices.

My internship experience includes roles as an **Exhibit Developer** at **Convey Health Solutions**—where I developed workflow automations using **JavaScript** and **SQL** within **Quadient Inspire**—and as a **Junior Systems Developer** at **FEU Tech**, where I contributed to **HRIS** development using **PHP**, **CodeIgniter**, **MySQL**, and **Bootstrap**. I am passionate about turning real-world challenges into scalable, secure, and user-centered web solutions.

Accomplished Projects

- Customodoro Timer – SEO-Optimized Progressive Web App (PWA) | **Co-Founder & Lead Developer**
- Associates Portal - Human Resources Information System | **Junior Systems Developer**
- TransitEase - NFC-Powered Ticketing System (Web & Mobile) | **Researcher & Full-Stack Web Developer**
- FEU Tech Capstone Project Repository - Academic Showcase Platform | **Full-Stack Web Developer**
