PROFESSIONAL EXPERIENCE

Co-Founder & Lead Developer – Customodoro Timer May 2025 – Present

- Co-founded and led full-stack development of Customodoro, a dual-mode productivity timer addressing the limitations of traditional Pomodoro techniques. Grew to 175+ users (60 monthly active) with 55.6% using exclusively the Reverse Pomodoro (Flowmodoro) mode and 32.4% utilizing both modes, validating market demand for flexible productivity tools among students and professionals.
- Achieved top-3 ranking in Karrar Haider's best Flowmodoro apps list and 400+ Google Search clicks in 28 days by delivering exceptional user experience. Optimized web application to 93% Performance, 92% Accessibility, 92% Best Practices, and 100% SEO scores on PageSpeed Insights.

Exhibit Developer Intern – Convey Health Solutions April 2025 – July 2025

- Developed automated exhibit templates and document workflows for healthcare clients using Quadient products. Built Imaging File Mover automation using JavaScript and SQL that replaced manual file validation with drag-and-drop functionality, significantly reducing processing time for exhibit developers.

Junior Systems Developer Intern – FEU Institute of Technology (ITSO) Jan 2025 – April 2025

- Contributed to the Associates Portal (HRIS) serving 3 FEU campuses, designing and implementing core employee-facing modules including Profile Page, Data Sheet, and Employee Directory using PHP (CodeIgniter), MySQL, jQuery, and Bootstrap with optimized SQL triggers to ensure data integrity and security.
- Developed HR admin features for centralized employee record management, including Create Employee Record, Merge Employee Record, and Manage Employee Profile systems that streamlined HR personnel workflows across the university system.

PROJECTS

- Customodoro Timer* – SEO-Optimized Progressive Web App (PWA) | **Co-Founder & Lead Developer**
- Associates Portal* - Human Resources Information System | **Junior Systems Developer**
- TransitEase* - NFC-Powered Ticketing System (Web & Mobile) | **Researcher & Full-Stack Web Developer**
